The Best or Nothing over the world
RC Plane Detecting System

Model : RCD S16

Reference data

Statistical color analysis, Red, Green, Blue

Statistical analysis of sound level and spectrum

Radio spectrums from RC plane

Radio direction finding

$$\sum_{n=1}^{n} (D_n + d_{compensation})$$
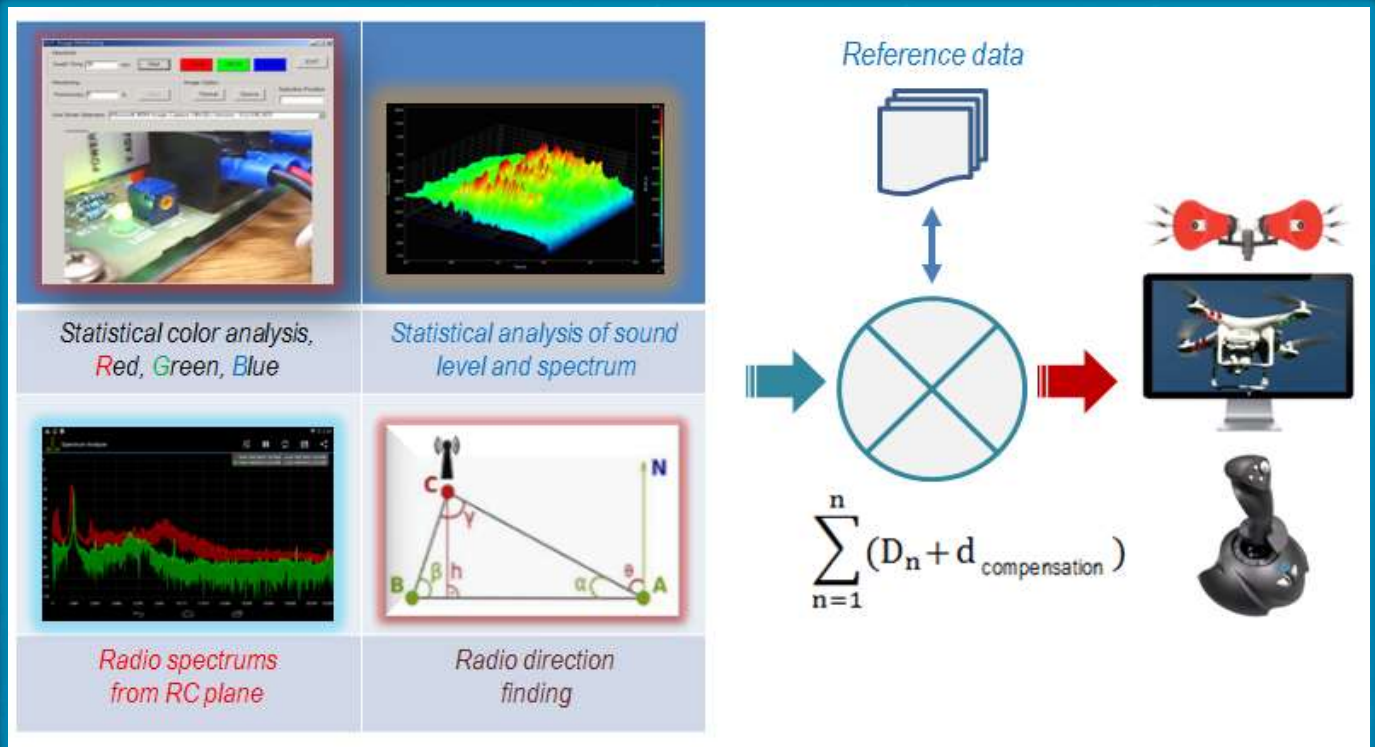

Main features'

-Statistical color analysis of the captured images, Red, Green and Blue

-Statistical captured sounds pressure analysis and frequencies

- Continuously Radio frequency monitoring from RC planes

-Optional RC planes position detection

-Visual image zoom functions

-Lowest uncertainty to detect a RC plane

Patents pending
