

# Optical Image monitoring system

Model : KTI 401 OVP and KT 401OC

## *Key features and applications;*

### - Full optical system

200V/m up to 40GHz ,10 times zoom, Image, Pan/Tilt and auto focus.

- Min.1 lux illumination.

- 1 pair optic cable for image and control

- Continuous image monitoring

- Analog density modulation for the continuous image pick up

- EMC engineer designed

- Proven under the 200V/m radiated immunity on the world wide

-On screen display

- Round type CCD fixture for perfect shielding

- IEC 61000-4-3 and vehicle RS test.

- On demand CCD camera special specification by end user
